

# Brian Head Welch, Kry

It started when I met you  
It ended the day you went away  
My heart dropped  
My God I had to have you  
Guess what? Still do  
If I get to know one will

It is now time for you to feel pain  
Feel pain- It is now t-  
It is now time for you to feel  
Feel- feel  
It is now time for you to feel pain  
No more will I allow you to decide

Now you bleed  
Now you're gonna feel what I feel inside  
You never cry  
You never feel what I feel inside

You're out there on your own now  
You'll see how things really are  
Somehow I let you get away from me  
Guess what? I do  
You already know  
I hope you remember me

It is now time for you to feel pain  
No more will I allow you to decide  
To decide-  
Decide- ci- ci- c- cide- ci- cide

Now you bleed  
Now you're gonna feel what I feel inside  
You never cry  
You never feel what I feel inside

Inside  
Feel what I feel inside  
You never cry  
You never feel what I feel inside
