

# Brian Jonestown Massacre, Short Wave

She's walking  
Right out the door  
She's talking  
It's not like before

Just to hear you say  
It doesn't matter 'bout the thing you say  
Just to get your way  
It doesn't happen to me every day  
Just to hear you say  
My hands are ?? already  
Just to get your way  
I'm ready for it anytime or place

?  
I forgot  
You don't care  
But you talk a lot

You can't have your way  
It doesn't matter 'bout the thing you say  
You can't get your way  
If you got any time or place  
Just to see your way  
Your eyes are swollen and ? already  
Just to get your way  
You're ready for it any time you say
