

# Brian May, Another World

(Brian May)

In another world  
Under another sky  
I see another story waiting  
To be told!

And another You - wakes up -  
With another Me  
For that's the way we've come to be  
In Another World

In a different place  
Way 'cross Time and Space  
The door is open wide  
Drawn to a different light  
Maybe we'll step inside

In Another World  
We can show we care  
You can be sure I'm waiting there -  
In Another World

When the dice were cast  
They laid a crazy path we follow to our graves  
But I know in different world  
We journey a different way

So we live but life  
Isn't what it seems  
We're only living in our dreams  
In Another World

You can believe I'll meet you here  
In Another World
