The summer got cold
And the wheels came off my mobile home and then
My face it got old
And the ride of my life broke down ten minutes from home

And God don't love me anymore
And once again I've drawn the short straw
I can't take it anymore

The voice in the ??
And the shoe is on the other foot for just then
The rhythm and soul
And I lost my mojo and no-go nasty surprise

God don't love me anymore
And once again I've drawn the short straw
I can't take it anymore

The world is spinning 'round
And I fell off and never hit the ground
It turned me upside down my heart fell out
Now I'm a walking disaster
Walking disaster

I can't take it anymore

The world is spinning 'round
And I fell off and never hit the ground
It turned me upside down my heart fell out
Now I'm a walking disaster
