

# Brian McKnight, Everything I Do

Baby, no matter what I'm doin'  
You know I'd rather be home with you  
And honey, doin' all the things wit cha  
All the things that you like to do  
Like washin' your hair an' paintin' your nails  
All the things that your ex-man wouldn't do  
Baby no I can't wait to get home to you

[Chorus:]

That's why baby  
Everything I do  
You know I do it for you  
Everything I say is true  
We been together so long  
All the crazy things that we been through

Baby you know everything I do  
I do them for you  
You don't hear me through  
I said everything I do  
I do them for you

Now baby  
You know it gets so difficult  
To get out of bed with you  
To go to my nine to five  
It's the only place I feel alive wit cha  
And to know that you're somewhere waitin' for me  
I know that you're more than enough for me  
I can't wait baby 'cause I know what you got for me

[Chorus]

What kind of fool would I be  
If I didn't give my all to you  
And tell me  
Where would I be if I couldn't lay next to you  
But if I know that you're down for me  
Then I know that everything is alright  
And by the time I get home to you  
I'm gonna lay a blockbuster on you tonight

[Chorus]
