

# Brian Wilson, Let's Stick Together

You make me feel like a man  
Doin' the best that I can  
Business ain't half of my soul  
With you by my side I'm bold

Your face radiates like a flower  
Your body's got magical power  
I'm waltzing up high in the clouds  
I'm shouting your name and proud

When you smile at me  
I feel so happy  
Let's stick together  
And always together

We'll be to see you tonight  
Thinkin' about you excites  
Let's play some music for dancin'  
Music for dreamy romancin'

Songs that have lyrics of love  
That talk about stars up above  
In your loving arms I'm complete

Hold me close as your heart beats

Let's stick together  
Oh let's stick together  
With two heads and two hearts together  
We'll find life so grand  
I wanna laugh at life's troubles  
With you hand in hand  
Oh wo oo yeah yeah yeah

Love often dries up too fast  
I want this passion to last  
Let's glue our two hearts together  
Make our affair last forever

Your face radiates like a flower  
Your body's got magical power  
I'm waltzing up high in the clouds  
I'm shouting your name and proud

Wo wo wo wo wo wo wo  
Yeah yeah yeah yeah yeah yeah
