

# Brian Wilson, Mexican Girl

Hey, Mexican girl  
A dahlia in your hair  
The soul of Los Feliz where laughter fills the air  
Won't you make me smile  
Light up my sundial  
Girl, you cast a net  
On the day we met  
Mexican, Mexican, Mexican girl  
Danced her way into my world

Hey, Mexican girl, with eyes of burning fire  
Heal me with your passion  
Inspire me to inspire

Loyal and strong, yet tender as a song  
Help me understand, make me a better man  
Mexican, Mexican, Mexican girl  
Danced her way into my world

Hey, bonita muchacha  
Don't you know that I want ya?  
Hey, bonita muchacha  
I need to know that I got ya

You have my sacred heart  
We'll finish at the start  
Can you picture me  
In your family tree?

Mexican, Mexican, Mexican girl
