

Brian Wilson, Save The Day

Once upon a time
Not too long ago
Change was in the air
Strangers smiled hello
Love is at the park
Flowers in our hair
Music our password
People really cared
Unafraid to try
Opened up our minds
Reached for the sky
Saw God all around
Future limitless
Made a joyous sound

Don't let your youthful dreams and vision fade away
Dust off your wild ideals and come on out and play
The power of love still can help us save the day

Save the day

Lennon said it best
Let's give peace a chance
Turn the other cheek
Practice tolerance
So we left the beach
Tried to end the war
We marched for peace
Good vibrations
Shook the status quo
We rocked the nation
Wo wo

Don't let your youthful dreams and vision fade away
Dust off your wild ideals and come on out and play
The power of love still can help us save the day

Help us save the day

Hang on to hope
We need our dreams
Don't let them crush you
Stay alive
Stay alive
Stay alive
Greed is a bad thing
Fills you up with hate
Pollution's killing us
Hope it's not too late
Let's renew our vow
Up to me and you
Time to change is now
Rise above the crowd
Register and vote
Speak your mind out loud

Don't let your youthful dreams and vision fade away
Dust off your wild ideals and come on out and play
The power of love still can help us save the day

Wo

Don't let your youthful dreams and vision fade away

Dust off your wild ideals and come on out and play
The power of love still can help us save the day
