

# Brides Of Destruction, Natural Born Killers

There you are, the superstar  
Caged and bound - don't they look smashing  
With all your camera punk ass flashing  
There you are it's so bizarre  
Broken down the captains shattered  
Sunken ship but it don't matter  
I've packed the bags under my eyes and now  
I'm fine

Let me be your one and only cockstar  
357 with my goddamn on star  
Natural born killer  
Natural born killer  
Livin' on a jack with my one eye open  
Lost generation and were anti posing  
Natural born killer  
Natural born killer

So there it is - it's who we are  
Black and blue prints for disaster  
Guaranteed to kill you faster  
Emperors it's time for war  
Lost angels of your de-construction  
Bone out cause the cocks in function  
I got strychnine on my tongue and  
I'm feeling F.I.N.E Fine

Let me be your one and only cockstar  
357 with my goddamn on star
