

BRIDGE, I Want To Believe In You (Ft. Tonez, W

Twist that spinach, put fire on the end of the bitch
Now let me hit it
Baby you cute, but you need to be fucking with Snoop
Come through and see what it do
Cause uh, nephew, let me hear some of that kush you got

Come over here, we ain't got time to waste tonight
Come over here, cause ain't no telling
This can be the last time I ever see your face
Can't believe I thought on you, you
After all you've put me through
You want me to forget it all
You better tell me something I wanna hear

You make me feel like I just wanna love, love again
It's all or nothing, it's all or nothing
You make me feel like I just wanna love, love again
It's all or nothing, it's all or nothing
I wanna believe in you, I wanna believe in you
I wanna believe in you, I wanna believe, believe, believe, in you, hey
If we gonna do it, we gonn do it all night
It mean nobody, it mean nobody,
It mean nobody
Gotta check them hoes, direct them hoes
Take em home, then let em hoes
Don't live out they fantasies
They poppin pills I'm rollin weed,

Come over here, we ain't got time to waste tonight
Come over here, cause ain't no telling
This can be the last time I ever see your face
Can't believe I thought on you, you
After all you've put me through
You want me to forget it all
You better tell me something I wanna hear

You make me feel like I just wanna love, love again
It's all or nothing, it's all or nothing
You make me feel like I just wanna love, love again
It's all or nothing, it's all or nothing
I wanna believe in you, I wanna believe in you
I wanna believe in you, I wanna believe, believe, believe, in you, hey

We gonn do it, do it all the night
Chains on, polo white t,
Me leaving here alone, that's unlikely
Plus a couple bands, I got 100 facts
I just made 100 off a 50 rack
I wanna believe in you, I wanna believe in you
I wanna believe in you, I wanna believe, believe, believe, in you.
