

Brighter Colours, 2 Good 2 Be True

Do you wanna, do you really wanna be free?
Can you get it, do you think you'll get it from me?

You know I've tried so hard to quit
And all those feelings I had to forget
Have left me empty in your closet next to a box of my shit
It's really all the same

Can I get it, do you think I'll get it from you?
Are you really, are you 2 good 2 be true?

You know I've tried my best to leave
Cause in the end I never received
All those things I always said were so important to me
And then you call my name

I'll pick my socks off the floor
before you get home
I'll wait to you finish work
before we get stoned
You know I'm thinking of you when I'm all alone

You know I've tried so hard to quit
And all those habits I had to forget
Have left me standing in your driving looking like an idiot
And then you call my name

You know I've tried my best to leave
Cause in the end I never received
All those things I always thought were so important to me
And then you call my name
