

# Brighton Rock, Change Of Heart

Too many lonely nights  
Just waiting for your call  
Too many times I know  
You're not alone

What did I say  
To make you treat me this way  
When I get close  
You turn and run away

Well, you do what you want  
I see you've had a change of heart  
It's just a parting in our ways

Tell me why  
You do what you do  
And leave me feeling this way  
It's just your sudden  
Change of heart

So many promises  
To you were only words  
But then you left me  
Still the candle burns, oh yeah

And now your heart  
Has grown cold  
You're turning to stone  
Baby, it's all game  
And slowly you push me away

Well, you do what you want  
`Cause it was over from the start  
Time to go our separate ways

Tell me why  
You do what you do  
And leave me feeling this way  
It's just your sudden  
Change of heart

Tell me why  
You do what you do  
And slowly push me away  
It's just your sudden  
Change of heart

(Solo)

Whoa, oh, oh, oh  
Whoa, oh, oh, oh

Tell me why  
You do what you do  
And leave me feeling this way  
It's just your sudden change of heart

Tell me why  
You do what you do  
And slowly push me away  
It's just your sudden change of heart

It's your heart  
Your heart

Ooh, baby, your heart  
Baby, you&#039;re cold

Tell me why  
Tell me why
