

# British Lions, International Heroes

(Kim Fowley/Kerry Scott)

Bobby and Sue still go to school  
Falling asleep and it ain't too cool  
Tom and Jane stuck in the rain  
At every concert when the bus leaves early  
We're just wasting time  
Wondering what we'll find when it's all over

I think I'll cut my hair off and start brand new again  
Why bother being different? We're all the same  
Hey friend it's gotta end  
I don't care what you wear, it's what you are that makes you a star

International heroes, you got the teenage blues  
Change has gotta come soon or else we're gonna lose

The noise I hear year after year ain't done nothin' but become unclear  
Hey everybody, what have we got? Old clothes and records starting to rot  
Don't throw them away  
Open yourselves to the sounds of the future

International heroes, you got the teenage blues  
Change has gotta come soon or else we're gonna lose  
International heroes, you got the teenage blues  
Change has gotta come soon or else we're gonna lose... lose... lose... lose

International heroes, you got the teenage blues  
Change has gotta come soon or else we're gonna lose  
International heroes, you got the teenage blues  
Change has gotta come soon or else we're gonna lose
