

# Britney Spears, That's Where I Found

I believe we all have one true love  
Somewhere in this world, I do  
When it seemed, all my dreams,  
were falling through,  
That's when I found you  
I believe for every heart  
That whispers in the dark,  
There's a ray of light somewhere shining through  
It must sink or swim  
When the tide came in  
I found myself,  
When I found you.  
I found the closest thing to heaven  
I found the deepest girl I knew  
I believe, yes it's true,  
I found myself when I found you.  
I believe, for every door that's closed,  
For every heartbreak,  
There's hope for something new  
From the ashes arise,  
A glimpse of paradise  
There's a flicker in your eyes,  
When I found you.  
I found the closest thing to heaven  
Yes I found, the deepest love I knew  
I believe, yes it's true  
I found myself when I found you  
Our life unfolds  
No-one knows  
I thought love was just a  
Tingling in my skin  
I felt so alone,  
All alone  
More than you could ever know,  
It's your deep love  
Sweet love  
When I found you  
I found the closest thing to heaven  
Yes I found, the deepest love I knew  
I believe, yes it's true  
I found myself when I found you
