

# Britney Spears, When I Found You (Bonus Track)

I believe  
We all have one true love  
Somewhere in this world,  
I do (I do, I do)  
When it seemed all my dreams  
Were falling through  
That's when I found you  
I believe for every heart  
That whispers in the dark  
There's a ray of light somewhere  
Shining through  
It was sink or swim  
When the tide came in  
I found myself  
When I found you  
I found the closest thing to heaven  
That's in you  
I found the deepest love I knew  
Oooo oh, I believe, yes it's true  
I found myself when I found you, Ooh yeah  
I believe (I believe),  
For every door (every door)  
That's closing  
For every heartbreak  
There's hope for something new  
From the ashes rise,  
A glimpse of paradise  
It still flickered in your eyes  
When I found you  
I found the closest thing to heaven  
That's in you  
I found the deepest love I knew  
Oooo oh, I believe, yes it's true  
I found myself when I found you  
A life unfolds  
No one knows  
I thought love was  
Just a tingling of the skin  
I felt so alone, all alone  
More than you could ever know  
You share deeper love  
Sweet love  
When I found you  
I found the closest thing to heaven  
I found the deepest love I know (I found you baby)  
I found the closest thing to heaven  
I found myself  
When I found you  
I found the closest thing to heaven  
That's in you  
I found the deepest love I knew  
Oooo yeah, Oh I believe, yes it's true  
I found myself when I found you, you
