

# Britny Fox, Left Me Stray

D. Davidson

You locked me out, just shut me down.  
Lives on a blade, there's no escape  
It's cold outside, what did I do.  
You slipped away and left me stray.

But where did your love love love run to, you left me stray.  
But where did your love love love run to, you left me stray.

I kick myself, and scream and shout.  
Just open up, unlock the love yeah.

chorus (2x's), lead, chorus out.
