

Britny Fox, Long Way From Home

D. Davidson

Seemed so far away and don't know what I missed.
You're my scattered skies and think of home I miss.
I see your face in the distance, envision you at night.
Miles of tears and pain, sometimes a lonely game.

Rising sun, brightest star.
Round the world, I love her.
The end of time, for you girl.
I'm comin'

My love's with you always, oh yeah.
Long way from home.

My love's with you even when I'm miles away.
I left a kiss in your hand, just hold it tight and pray.

Bridge, chorus, hook (2x's), Lead, Break, Chorus out.
