

# Britny Fox, Louder

B. Childs, T. Paris

CD's on ten  
Ooh you gotta drink a lot  
Push you to the edge  
If you wanna think a lot

Skirts hiked high.  
Don't you know the perfect scenery  
Tonight make me everything I wanna be  
Feel the electricity

Louder - cuz you like it  
Louder - cuz you need it  
Louder - only way to feel the same as me  
Louder - cuz you like it  
Louder - cuz you need it  
Louder - give it up for me

Cutting into you  
Take the knife willingly  
Volume right through you  
Other spaces no one sees

Legs so right  
1st prize in my gallery  
Tonight make me everything I wanna be  
Feel the sexuality

She come a runnin'  
She's such a usin' machine  
She's got it comin'  
She's got it comin' all the way for me
