Broadcast, We've Got Time

You and I, got something
Why don't we try
What fools cannot buy
What lives cannot hide
You wrote your name, in silver light
The question still unanswered
Just in case it's not right
We've got time to work it out
We've got what numbers cannot have
Who knows we'll work this rhythm out
Miricle man possessing all that you can
Will you change the circumstance
Let it happen by chance
You wrote your name in silver light
The question still unanswered
Just in case it's not right
We've got time to work it out
We've got what numbers cannot have
Who knows, we'll work this rhythm out.

We've got time to work it out
We've got what numbers cannot have
Who knows, we'll work this rhythm out.
