

Brodie, I Know

It's been several weeks now since we've had fun
It should be over now but I think you're the one
You're not like other girls: I don't get sick of you
Please stop these stupid games and see the truth

It seems ironic that you're scared of losing me
The only problem that we have is you can't see
You're not like other girls: I don't get sick of you
Please stop these stupid games and see the truth:

I watch you drive away
and I know..... that this is not the end
you've played this game before
and I know..... I am still more than a friend

Starting to think that trust is something you can't have
What kind of relationship is this if you're always sad
I'm not like other guys: I won't be mean to you
Can't open up to me you'll never see the truth

I watch you drive away
And I know.: That this time will be the end
Cause I'm through playing games
And I know: I am better off as just your friend
