

Brolle Jr, Last Night

She is my girlfriend
From another world
And when the city sleeps tonight

The stars whisper her name
She's been here before
Will I see her again tonight

Last night
I saw her face in a dream
Last night
She made it feel so real

She comes into my room
She takes off all her clothes
She lies down by my side
'Cause she's my good thing, good thing
At night she comes alive
'Cause she's my good thing, good thing

She is my girlfriend
From another world
And when the daylight fades I know

Last night
I saw her face in a dream
Last night
Her kisses felt so real

She comes into my room
She takes off all her clothes
She lies down by my side
'Cause she's my good thing, good thing
At night she comes alive
'Cause she's my good thing, good thing

Oh oh yeah
And then some time into the night

She comes into my room
She takes off all her clothes
She lies down by my side
'Cause she's my good thing, good thing
At night she comes alive
'Cause she's my good thing, good thing
