

Brooke Fraser, Mystery

I wanna get your words
Stuck in my head
I wanna touch your soul with mine
I want to always be
Be by you led
Always

I wanna know that you
Hung the stars in the sky
So on lonely nights I would know your presence
I wanna feel your love
Under my skin
Down through my bones

[Chorus]
Your love
Endures forever
Your love
Changes me
Your love
Makes me whole
Makes me better
Your love endures

I wanna feel the wind
And know that you're near me
And see in the seasons your mystery
I wanna feel your love
Flow through my veins
Pound in my heart

Your love
Endures forever
Your love
Changes me
Your love
Makes me whole
Makes me better

I want to know
How this could be
Yet your love remains
A mystery
That's woven all the way
That's woven all the way
That's woven all the way
Through me... yeah-yeah...
Ooh...
In me

Your love
Endures forever
Your love
It changes me
Your love
Makes me whole
Makes me better
Your love endures
