

# Brooks & Dunn, Can't Stop My Heart

Sittin' in my world alone  
I catch myself reachin' for the phone  
Gotta get outta here and find a place to get my head clear  
I make a wrong turn down your road  
And how I got here, I'm afraid I know  
A part of me keeps going too far  
I can't stop my heart

Yeah it feels what it wants to feel  
And it does what it wants to do  
I tell it no, then before I know it  
It's a right back to lovin' you  
I can't stop my heart before it's through  
It's gonna break itself in two  
I can't stop my heart

I do my best to leave the past  
But I can't keep my heart from going back  
What am I gonna do, it just remembers what it wants to  
And once it lets your memory in  
I let myself get swept away again and again  
I know it's always tearing me apart  
I can't stop, stop my heart

Yeah it feels what it wants to feel  
And it does what it wants to do  
I tell it no, then before I know it  
It's a right back to lovin' you  
I can't stop my heart before it's through  
It's gonna break itself in two  
I can't stop my heart
