

Brooks & Dunn, I Fall

I breeze through the day
And nothin' much seems to get in my way
I don't have a care at all
You walk in the room
It's always the same
You call out my name
I turn
You smile
I fall
I'm at home at night
Just me and the moon
But doin' all right
When out of the blue you call
I hang up the phone
I lay down in bed
Your still in my head
I dream
You smile
I fall
Oh what could this feeling be
Could it really be love
That's happening to me
Oh yeah yeah
The closer you get
The harder it is to keep it together
I don't have a chance at all
It's out of my hands
Oh but what can I do
I'm crazy for you
We touch
You Smile
I fall
Oh Yeah
We touch
You smile
I fall
