50,000 Candles Burning

The world's asleep, don't despair

Got all I need, my love is strong and clear

Let's break away, you and I

Forget the future, leave the past behind

All it takes is just one little spark, feel it, from me

We'll make a chain of light in the dark, baby, let our hearts be free

We've got 50,000 candles burning, 50,000 candles burning

Let's do the dance of life

You know everywhere the world is turning

50,000 candles burning

It's my party, it's my party tonight

No time for tears, dry your eyes

The world could vanish in a flash of light

Oh, precious time just fades away

Let's celebrate the love we have today

All it takes is just one little spark, feel it, from me

We'll make a chain of light in the dark, baby, let our hearts be free

We've got 50,000 candles burning, 50,000 candles burning

Let's do the dance of life

You know everywhere the world is turning

50,000 candles burning

It's my party, it's my party tonight (repeat)

We've got 50,000 candles burning
