

# Brother Cane, Machete

Here it comes in judgement  
Driving in the nails  
Make you feel degraded  
How you like to feel

You wait, I take  
My fate is in the hand  
That's feeding every urge I have

Don't cut me out today  
Don't bring me down again  
Don't cut me out today  
Don't bring me down again

Yeah

Bring me down machete  
Anchored to the wall  
Make you feel the tension  
Breathing in us all

You wait, I take  
But never understand  
How could I lose a winning hand

Don't cut me out today  
Don't bring me down again  
Don't cut me out today  
Don't cut me out  
Cut me out, cut it out

Don't cut me out today  
Don't bring me down again, again

Don't cut me out today  
Don't cut me out  
Don't you try to cut me

Don't cut me out today  
Don't cut me out today  
Don't cut me out today
