

Bruce Hornsby, Sunflower Cat (Some Dour Cat) (

One eye is open, the other eye is shut
Don't throw anything to me
I'm in no place, no place to receive
And I just can't move a thing
Well, things are rough down here
You know it's a little grim
Whatever you've got to pick me up
To take me out, I'm in
I'm down with that

In my dreams I can fly, fly high
Over fields and across the sky
Then I'm awake and I'm back on the ground
If you could take me back up there
I'm down, down with that

When I escape and close my eyes
Can't tell you from me
Sometimes in dreams I look at myself
And it looks so good, what I see
Well, I'm having a little trouble here
Could you maybe help me out?
A little confidence pill you got
To take away my self-doubt
I'm down with that

In my dreams I can fly, fly high
Over fields and across the sky
Then I'm awake and I'm back on the ground
If you could take me back up there
I'm down, down with that

Slow down son, shake yourself
Why make your own hell?
Say what are you doing son?
I'm just trying to like myself
I'd love to help you out
You know I really, really would
May your days be bright and well
I'm down

In my dreams I can I fly, fly high
Over fields and run through the sky
Then I'm awake and I'm back on the ground
If you could take me back up there
I'm down, down with that
