Bruce Springsteen, Let's Be Friends

I been watchin' you a long time Trying to figure out where and when We been moving down that same line The time is now maybe we could get skin to skin

Don't know when this chance might come again Good times got a way of comin' to an end Don't know when this chance might come again Good times got a way of slippin' a-way Let's be friends, baby let's be friends

I know we're different you and me Get a diffente way of walkin' The time has come te let the past be history

Yeah, if we could just start talkin'

Don't know when this chance might come again Good times got a way of comin' to an end Don't know when this chance might come again Good times got a way of slippin' a-way Let's be friends, baby let's be friends

Do, do do do do do do do...

There's a lot of talk going 'round now Let'em talk you know you're the only one There's a lot of walls need tearing down Together we could take them down one by one
