

# Bruno Mars, Circles

Got me going in circles c-circles  
My heart is dizzy from you  
Got me going in circles c-circles  
Tell me what I'm supposed to do  
You got me up at night  
Feeling like  
You won't come thru  
Got me going in circles c-circles  
My heart is dizzy from you  
Round and r-r-r-round we go [x2]  
Round and r-r-r-round  
I'm goin' in circles c-circles  
Please girl!

I give you everything, but, it's not enough  
You started being easy but lately you've made it rough (for us)  
You say you need me but then turn me away  
Got me oh so confused, should I leave or should I stay?  
(Baby tell me what you want) A little more time  
(Baby tell me what you need) Baby all your love  
(How far you tryna go?) All the way  
(Girl I just don't know) Make up your mind

Got me going in circles c-circles  
My heart is dizzy from you  
Got me going in circles c-circles  
Tell me what I'm supposed to do  
You got me up at night  
Feeling like  
You won't come thru  
Got me going in circles c-circles  
My heart is dizzy from you  
Round and r-r-r-round we go [x2]  
Round and r-r-r-round  
I'm goin' in circles c-circles  
Please girl!
