

Bryan Adams, I Thought I'd Seen Everything

I like the way we are - I love what we've become,
When I'm in your arms - I know I've found the one,
I love you kiss me mouth - And your static touch,
It's just the way you are - Makes me feel so much - Yeah.

No one could ever know - What we're like alone,
Rollin' round like rain - We're a midnight storm,
Like a river rising - I feel it through your skin,
When we're together - Oh I never want it to end - No.

I thought I'd seen everything - 'til I saw you,
I thought I'd been everywhere - 'til I'd been with you,
I thought that everyone - Knew what I knew,
I thought I'd seen everything - 'til I saw you.

I like the way we are - Like the ragin' fire,
Burin' up the night - Burnin' with desire,
You're such a sweet temptation,
You know I can't resist,
Electricity, hey, everytime we kiss - Oh!

I thought I'd seen everything - 'til I saw you,
I thought I'd been everywhere - 'til I'd been with you,
I thought that everyone - Knew what I knew,
I thought I'd seen everything - 'til I saw you.
Yeah I saw right through,
Oh I seen it comin'.

Hey - I thought I'd seen everything - 'til I saw you,
I thought I'd been everywhere - 'til I'd been with you,
I thought that everyone - Knew what I knew,
I thought I'd been everywhere,
I thought I'd seen everything,
Aww, 'til I saw you.
