

Bryan Ferry, Taxi

Taxi!

Take me to the other side of town

Just as fast you can

Taxi!

Before my baby puts me down

Now please, wont you hurry

See, shes got me worried

Dont want to lose her love

Cross town is too slow

Hitchhike into no no

Shes all Im thinking of.

Taxi!

Got some catching up to do

Taxi!

Like a fool I broke her heart in two

And start your meter running

Get your engine humming

Just wanna see her

Just wanna see her

Get along the meddle

Tonight Im gonna settle

Had a seizure

And I know it grieves her

Taxi!

Take me to my babys place just as fast you can

Taxi!

You got to get me there on time

Freeway will be quicker

No mans gonna get her

Im going out of my mind

She is why Im living

This is why Im willing

Jumping red lights, stop signs

Just get me there on time.
