

Bryan Ferry, Taxi

Taxi!

Take me to the other side of town
Just as fast you can

Taxi!

Before my baby puts me down
Now please, wont you hurry
See, shes got me worried
Dont want to lose her love
Cross town is too slow
Hitchhike into no no
Shes all Im thinking of.

Taxi!

Got some catching up to do

Taxi!

Like a fool I broke her heart in two
And start your meter running
Get your engine humming
Just wanna see her
Just wanna see her
Get along the meddle
Tonight Im gonna settle
Had a seizure
And I know it grieves her

Taxi!

Take me to my babys place just as fast you can

Taxi!

You got to get me there on time
Freeway will be quicker
No mans gonna get her
Im going out of my mind
She is why Im living
This is why Im willing
Jumping red lights, stop signs
Just get me there on time.
