

Buck Owens, Foolish Notion

(Doyle Holly)

I just knew that someday you would fall in love with me
Then maybe I could smile again and live some of my dreams
But I guess I just got to involve in all of my emotion
To think that you could love me too is just a foolish notion.

I do anything for you, it's all that I can do
It's all because my crazy heart's so much in love with you
But I might as well just throw my love in the deepest ocean
To think that you could love me too is just a foolish notion.

I guess you'll follow your love until the end of time
For you're so much in love with him that you are so blind
To see the love that follows you with so much devotion
To think that you could love me too is just a foolish notion.

To think that you could love me too is just a foolish notion...
