

# Buck Owens, I Want No One But You

I don't want to be a movie star with riches and things  
And I don't even care if anybody knows my name  
I don't want to be the president he got too much to do  
Well I just want someone to love and that someone is you  
So darlin' put your arms around me and let your charms surround me  
And tell me that you love me cause I want no one but you

[ guitar ]

I don't want a Cleopatra she might cheat on me  
She had too many boy friends back in history  
I don't want to be a millionaire to sail the ocean blue  
I just want someone to love and that someone is you  
So darlin' put your arms around me...  
Oh no I want no one but you
