

Buckcherry, Baby

Yeah

If I could control my fears, where would ya be in my life?
I tell you now I'm dangerous, love bleeds there in your eyes
She flies like a butterfly, wind underneath her pretty wings
Its not about the money babe, your lessons learned while you sleep

Yeah!

Every time I look in your eyes
Well I see the love, light up in you baby
Just between the good advice
Well I got the love, so tight in you baby, baby, yeah
I got that love so tight in you baby

I love it when you physical, underneath you beautiful
Jammn' on your pillow case, its just enough for me baby, alright

Yeah!

Every time I look in your eyes
Well I see the love, light up in you baby
Just between the good advice
Well I got the love, so tight in you baby

Let me catch a ride on your lifeline
And create some lovely destruction
Let me catch a ride on your lifeline
And create some lovely destruction

Oh yeah!

Got to get down, come on, yeah

Yeah!

Every time I look in your eyes
Well I see the love, light up in you baby
Just between the good advice
Well I got the love, so tight in you baby, baby
Baby, baby, baby, baby, baby
Baby, baby, baby, baby, baby
