

Buckcherry, Borderline

Dance with me people, yeah

The campus of an open mind, well it makes a good mold
I'm taking up for you this time, don't be late for the show, yeah, yeah
Were always laughing and singing and grooving and loving and reaching for more
I can't sleep on it tonight but tomorrow will bring more
You know what I'm talking about now, her we go

So come, and ride, on the borderline
The timings right, are you satisfied

I thought about a time away, and I'm taking it slow, uh
Its hard to break away from loving when it feels so good
Were always laughing and singing and grooving and loving and reaching for more
I can not sleep on it tonight but tomorrow will bring more
And he always love you all, come on now

So come, and ride, on the borderline
The timings right, are you satisfied, are you satisfied

Alright, yeah, alright

Yeah, yeah, yeah, yeah
Done so much living baby, all the way, to the top we go
Yeah, yeah, yeah, yeah
Done so much living baby, all the way to the top, with a little love
Yeah, with a little love, yeah, well we always got to get back to love
With a little love, yeah, with a little love, yeah well we always got to get back to love

So come, and ride, on the borderline
The timings right, are you satisfied
Talk to me now
So come, and ride, on the borderline
The timings right, are you satisfied
Talk to me now
So come, and ride, on the borderline
The timings right, are you satisfied
