

Buckcherry, Get Back

I was down on my luck, to scared to leave my spot
Saw you out my window thought this girl is hot
Oh baby i could tell that your in tune with yourself on the bulavard, oh yeah

Double up on my grooving, to give me whati got
When we get our groove on the best on the spot
We could pain the town and fill the river with love tapping in the streets, oh yeah

Get back to what it is that drives you, you just can't fight off the men
And now you wanna tell me there so much left for you out there
When im in love with you

Can we make it to the ocean and get wet with ourselves
Listen to the movement and dance on the dock
Im crazy for you baby and the llok on your face, well its killing me, oh yeah

Get back to what it is that drives you, you just can't fight off the men
And now you wanna tell me there so much left for you out there
When im in love with you

Babys got the movement, its always how, sitting in a park and feeling it rock
Wont you stay with me, feel the love, mama play with me, uh
Fellas on the move, looking for bucks, generate the grove making it work
Come on sway with me, feel the love, everytime you move im alive

Get back to what it is that drives you, you just can't fight off the men
And now you wanna tell me there so much left for you out there
When im in love with you
Get back to what it is that drives you, you just can't fight off the men
And now you wanna tell me there so much left for you out there
When im in love with you
