

Buckcherry, You

Talk to me tonight
Is everything alright
Help me understand you
You go out with your friends
And talk to other men
And our love life is a wasteland

Prechorus
And with the change a new test of faith
To help us through tomorrow
A condition of the love we made

Chorus
Cause things won't change without you
Forfeit the lies that maimed you
I want to dance with the lions and change things
But I can't do it without you...you

You told me I'm the one
And now you're out of love
In your eyes it's hard to find you
If we could take some time
And cut out all the lies
I'd find a heart more stable

(Repeat Prechours)

So take it easy girl
You're falling through the night
Your Mona Lisa eyes
Will comfort me the rest of my life

(Repeat Chours X2)

When love has hit your eyes
I'll never say goodbye
We stand alone tonight
Without you
Without you
(Repeat X2)
