

# Budgie, Napoloeon Bona Part One & Two

There's a light  
Covers up my doorway  
Flickering light  
Never run away  
And I might, I might be going your way  
Say you might  
Might help me on my way  
Umm what a sight  
Sight of vertigo  
Keep you warm  
And never let go  
And the light coming my way  
Compare to what others have seen  
But the tall and the strong  
He once had it  
As a sound that was loud in his dream  
And I stand locked before the waves  
Wind and snow, heaven and night  
And you know  
Wherever men like that stay  
I can feel it burning in my eyes  
And the light coming my way  
Compare to what others have seen  
But the tall and the strong  
He once had it  
As a sound that was loud in his dream  
Heaven's sound it's driving me wild  
If only I know that it's right  
I got this message that makes me feel good  
Carries me on through the night  
Hold me, hold me, hold me, hold me  
Well I go through life like a hurricane lamp  
Riding the road as I go  
Spreading this magic  
Injecting the light  
Please let it stay, never go  
Hold me, hold me, hold me, hold me  
I think I'm Napoleon  
And others before  
I rather seem to exist  
Hey now follow it, follow it  
Keep it in sight  
Before you would never have missed  
Hold me, hold me, hold me, hold me
