

# Budgie, Wondering What Everyone Knows

I never walk in the street,  
Or gather round where people meet  
With you on my head and me on my toes  
Wondering what everyone knows,  
Wondering what everyone knows  
I bystand for the post, but all my letters are lost  
With you on my head and me on my toes  
Wondering what everyone knows,  
Wondering what everyone knows  
Wondering what everyone knows  
Darkness in white you can feel through the light  
of the darkest cloud and touch my hand  
You are a sound in my head,  
Sew up my ears with your thread  
With you on my head and me on my toes  
Wondering what everyone knows,  
Wondering what everyone knows  
Wondering what everyone knows
