

Built To Spill, Out Of Site

raised unright
so uptight
but why blame you
you wouldn't be if you could choose
most of the time it's out of site
it hit me today
who gave who the right
who took mine away
what a sight
what a sound
what a way to bring people down
what a way to bring me down
I know that you'll get yours when you get empty
it's so close
I'm sure that you would rather do that than be in your clothes
you must have waited a long time
bet you were disappointed
I waited longer than that
just goes to prove
proving's illogical but
(Illogical)
it's sometimes necessary
proving's illogical but
(Illogical)
it's a cinch
fa-la-la
fa-la-laaa
but why blame you
you wouldn't be if you could choose
most of the time it's out of site
it hit me today
who gave who the right
who took mine away
what a sight
what a sound
what a way to bring people down
what a way to bring me down
it goes on and on and on and on and on
