

Built To Spill, Strange

this strange plan is random at best
this strange how much more can i take
this strange changing atmosphere
and it gravity too in its severity
this strange day is almost over
just started to get sick of it
and its strange but not all that strange
yeah its strange but whats so strange about that
yeah its strange but what isnt strange
yeah its strange but oh well
this strange plan is random at best
this strange how much more can i take
this strange sound you said i said
youre not listening or im not saying it right
this strange war of promises
lets call this a truce, well call it the truth
and its strange but not all that strange
yeah its strange but whats so strange about that
yeah its strange but what isnt strange
yeah its strange but oh well
