

# Built To Spill, Virginia Reel Around The Fountain

You told yourself something funny the other day  
You said you can't make you laugh.

How can that be in your solid state?  
How can that be in your solid state?

Don't say no, just say you don't know.

How can that be in your solid state?  
As you make it unreal

I'm reeling around the fountain  
I'm reeling around the fountain.

I still confide in you almost every day  
Even though you're not around.

How can that be in your solid state?  
How can that be in your solid state?

Don't say no, just say you don't know.
