

Bullet For My Valentine, Disappear

Once again, the same things on your mind,
Increasing pulse of what goes on inside!
Will you pay for what you've done?
Hatred!
Paybacks such a bitch, her vengeance haunts you!

[Pre-Chorus]
So what's wrong tough guy, why the tears?
You drove me to this, now you disappear!

[Chorus X2]
Now all those acts repaid!
Your turn to be afraid!
Not longer, almost done,
Oh God, just what have I become?

You try to fight, you only make things worse,
Screams of agony upon a verse!
Now you're begging for your life!
Breathless!
All the times I've bled, my vengeance takes you!

[Pre-Chorus]
[Chorus X2]

Your sweetest dreams into fears!
It's almost done, they're almost gone!
Our darkest days, they fade away!
It's almost done, they're almost gone!

[Breakdown X4]
Hey!

[Pre-Chorus X2]
[Chorus X2]
(Now!)

Yeah!
