## Bullet For My Valentine, Disappear

Once again, the same things on your mind, Increasing pulse of what goes on inside! Will you pay for what you've done? Hatred! Paybacks such a bitch, her vengeance haunts you!

[Pre-Chorus] So what's wrong tough guy, why the tears? You drove me to this, now you disappear!

[Chorus X2] Now all those acts repaid! Your turn to be afraid! Not longer, almost done, Oh God, just what have I become?

You try to fight, you only make things worse, Screams of agony upon a verse! Now you're begging for your life! Breathless! All the times I've bled, my vengeance takes you!

[Pre-Chorus] [Chorus X2]

Your sweetest dreams into fears! It's almost done, they're almost gone! Our darkest days, they fade away! It's almost done, they're almost gone!

[Breakdown X4] Hey!

[Pre-Chorus X2] [Chorus X2] (Now!)

Yeah!
