Bullet For My Valentine, The Poison

Now, is your time to die We've gathered here to say goodbye No, more, you'll cry No reason left for you to fight

Feel, pain, no more Emotions never felt before Where, do, we go We go, she'll never know

Holding on to you, to keep from falling Your eyes are closing now Another chapter's ending

Hard, times, we always saw There's nothing left of you no more Fear, has, no place, no place Cover her face

Holding on to you, to keep from falling Your eyes are closing now Another chapter's ending

This is our last goodbye (goodbye!) This is our time tonight

Holding on to you!

Cover up her face!

Holding on to you... To keep from falling!

Holding on to you, to keep from falling Your eyes are closing now Another chapter's ending

This is our last goodbye (goodbye!) This is our time tonight (goodbye!)

This is our last goodbye!
