

# Bullgooseloony, Radio Catastrophe

what if one day  
the music just stopped  
and you couldn't even  
sing a song?  
what if one day  
all the radios turned off  
and you couldn't even  
sing along?

chorus:  
looks like another  
radio catastrophe  
o yeah  
another audio emergency  
thats affecting all of  
humanity  
by driving us all to insanity

drivin in your cars  
sittin in your rooms  
doin everything and thinkin  
nothing of the tunes  
well what if one day  
they all went away?  
what would you do?...  
thats right, you got nothing to say

chorus

so now, dont you see?  
why the music's so important to me  
it gives me a place  
where i belong, yea  
a place where i'll always be
