

# Buried Dreams, Immortal Echoes

[Lyrics: Olguin]

[Music: Mendoza]

A new path begins  
To the point of no return  
I find confusion in my mind

There's a battle inside my head  
My soul is fighting to rise  
Retarded my eyes

[Chorus]

Fear  
Starting to fall in another force  
Different than mine  
Courage  
Scaring my spirit in an unknown world  
Power  
In my strongest allied  
Defeat  
It's so easy without it

There's images full of dregs  
Before my eyes I am the terror climax  
Everything is falling in suspense in silence  
Without breathing

[Chorus]

My power, inspires me to continue in this cosmos  
I look around everything is so fucking strange  
Even when... we fall  
Upon my shoulders, there's no awakening  
Time stands still

I can't touch the fire  
Fly over the seas  
I can't see what others can  
I can feel like running inside of me  
For eternity

This eternety  
Reality will no end  
I will be here  
Waiting for a new being  
Able to sacrifice  
Anybody can hide  
For this is an inside reality
