

# Burton Cummings, Never Had A Lady Before

I've had girls and I've had women  
But I've never had a lady before  
I've been high and been flyin'  
But I've never been this crazy before  
Sayin' sweet things that I really wanna hear  
And it's comin' as no surprise  
Whatever we got is oh so hard to find  
I realize too that somethin' like you  
Doesn't come along every day  
And I'm turning over part of my mind to you now

I've been loved, been befriended  
But I never really bled before  
I've seen brains and I've seen brilliance  
But I never got 'em through my head before  
Could've been a week or it could've been an hour  
It could've been a thousand years  
When I'm with you baby I'm losin' my track of time  
A little bit of me and a little bit of you  
Is tellin' me to have no fears  
And I'm turning over part of my mind to ya honey

Ooooh, ooooh  
Emotion just can't be denied  
Ooooh, ooooh  
Feelin' only comes when we're side by side

I've had girls and I've had women  
But I've never had a lady before  
Hey na na  
Never had a lady before  
Hey no lady  
Never had a lady before  
Ahh ahh ahh  
Never had a lady before  
Hey, now you're doin' it, whatever you do I'm gonna like it  
Never had a lady before  
Don't know what you're doin' but you keep on doin' it baby  
Never had a lady before
