

# Burton Cummings, You Saved My Soul

We went together for so long  
ev'ry second record on the radio seemed like our song  
How we hurt each other; oh baby it was so wrong  
something in the bottom of my heart will keep me holding on

'cause you saved my soul  
you came along and took me out of the night time  
Yeah you saved my soul  
taught me to fly...and I gave my heart  
and babe that's something that there's jut no returning  
'cause if I have you now I'll never have to make it alone.

We were lovers for so long  
every second record on the radio seemed like our song  
even though we're older, things we're feeling can't be all wrong  
something in the bottom of my heart will keep me holding on.

'cause you....(repeat chorus)  
.....I'll never have to make it alone  
Saved my soul; saved my soul  
Saved my soul; saved my soul

You saved my soul....(repeat chorus)...  
.....never have to make it alone.

yes if I have you now I'll never have to make it alone  
yes if I have you now I'll never have to make it alone.
